SKILLS

Frontend

React, TypeScript, JavaScript
Next.js, Vite, Tailwind CSS
Zustand, TanStack Query

Backend

Python, FastAPI, Django
PostgreSQL, MySQL, Supabase
REST APIs, GraphQL, OAuth

Cloud & DevOps

AWS (EC2, S3, SageMaker)
Docker, Terraform, CI/CD
Vercel, GitHub Actions

Tools

Git, Postman, Figma, Jira
Jest, Pytest, Linux

EDUCATION

George Mason University

M.S. Computer Science
2024 – Present

James Madison University

B.S. Computer Science
2020 – 2024

Experience

Eigennet

Software Engineer

2024 – Present

- Sole cleared developer managing a secure AWS document transmission pipeline, delivering **500+ classified documents monthly** with **99.7%** success rate
- Engineered LLM extraction on SageMaker that processes **10K+ pages/day** at **99% accuracy**, cutting manual review by **85%**
- Automated metadata packaging, zip creation, and SFTP delivery in Python, saving **20+ hours/week** of manual work
- Built EC2/S3 batch workflows with API-driven tracking, reducing transmission errors by **90%**
- Created Python/Django validation pipelines to catch schema drift before delivery, preventing downstream data failures

Freddie Mac

Software Engineering Intern

2023

- Shipped a Java data-validation tool detecting anomalies and schema drift across financial CSV datasets, cutting reconciliation effort by **60%**
- Integrated automated version-mismatch alerts, catching **3x more** integrity issues pre-production
- Compressed quarterly reconciliation from **2 weeks to 3 days** through automated CSV comparison workflows

Projects

Embark

[React](#) [TypeScript](#) [FastAPI](#) [Python](#) [Supabase](#)

embark-theta.vercel.app

- Life gamification app with RPG quest engine — users earn XP, collect rarity-tiered items, and level up through real-world challenges
- Built real-time Supabase + FastAPI backend serving **50+ active users** with WebSocket progress tracking

Cinetik

[React](#) [TypeScript](#) [FastAPI](#) [Python](#)

cinetik.app

- Full-stack media tracking app integrating TMDB via TanStack Query with Zustand state management and responsive Tailwind UI
- Deployed PostgreSQL data layer handling **500K+ records** with optimized query patterns
