EDUCATION

George Mason University — M.S. Computer Science	2024 – Present
James Madison University — B.S. Computer Science	2020 – 2024

EXPERIENCE

Eigennet <i>Software Engineer</i> Reston, VA	2024 – Present
- Managed secure AWS document transmission pipeline as sole cleared developer - Delivered 500+ classified documents/month with 99.7% success rate - Built SageMaker LLM extraction: 10K+ pages/day, 99% accuracy - Automated end-to-end SFTP delivery pipeline in Python - Metadata packaging, zip creation, and encrypted transfer - Eliminated 20+ hours/week of manual processing - Engineered EC2/S3 batch workflows with API-driven tracking - Real-time delivery monitoring via internal APIs - Cut transmission errors by 90% - Built Django validation pipelines for pre-transmission data quality - Schema drift and anomaly detection - Prevents downstream data failures across partner systems	

Freddie Mac <i>Software Engineering Intern</i> McLean, VA	2023
- Designed Java-based data-validation tool for financial CSV datasets - Detects anomalies and schema drift across large datasets - Reduced manual reconciliation effort by 60% - Integrated automated alert system into Financial Engineering pipeline - Version-mismatch detection across data sources - Caught 3x more data-integrity issues before production - Accelerated quarterly reconciliation process - Compressed timeline from 2 weeks to 3 days - Automated CSV comparison workflows end-to-end	

PROJECTS

Embark <i>embark-theta.vercel.app</i>	React TypeScript FastAPI Python Supabase
- Life gamification app: RPG-style quests, XP/currency systems, rarity-tiered item collection - Real-time progress via Supabase subscriptions - FastAPI WebSocket endpoints for live updates 50+ active users	
Cinetik <i>cinetik.app</i>	React TypeScript FastAPI Python
- Full-stack media tracking and social app for movies and TV shows - TMDB integration via TanStack Query - Zustand for client state management - PostgreSQL data layer handling 500K+ records - Responsive Tailwind CSS UI across devices	

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL, Java, HTML, CSS
Frameworks & Libraries: React, Next.js, React Native, FastAPI, Django, Tailwind CSS, TanStack Query, Zustand, Vite
Cloud & Infrastructure: AWS (EC2, S3, RDS, Lambda, SageMaker), Docker, Terraform, GitHub Actions, Vercel, Railway
Data & AI: PostgreSQL, MySQL, Supabase, Pandas, NumPy, OpenAI, Anthropic, Celery, asyncio
Tools: Git, Node.js, Postman, Figma, Jira, Jest, Pytest, Linux
