Eigennet

WORK

Software Engineer

> Only cleared engineer trusted to run a classified AWS document pipeline — **500+ deliveries/month** at **99.7% success**

> AI extraction engine on SageMaker: **10K+ pages daily**, **99% accuracy**, cut manual review by **85%**

> Python automation that eliminated **20+ hours/week** of manual packaging, encryption, and SFTP delivery

> EC2/S3 batch orchestration with real-time monitoring — failures down **90%**

> Validation layer catching schema drift and anomalies — zero downstream incidents
